Kelly,
As I prepare to have our second group at Altamont this afternoon, I am keenly aware of how indebted to you and your team we are. The supper for the Altamont residents was excellent, but not only in terms of the decorations and food. I was most impressed by the Lord's love and compassion that was so much a part of you and your team, from the serving in the kitchen to the individual serving of the residents, and all of this bathed in wonderful worship and message of hope. It goes without saying that you were a blessing. But, I want you to realize that you all were not a one-time blessing. That would have been fine in itself, but you also opened a door. We now can minister to these men over time; you all made it possible. Our resident physicians can now have the experience of touching "the least of these"; you and your awesome team paved the way. I thank the Lord for who you are and pray that His blessings will be more than you can contain. For myself and IHI, thanks.

Your friend and brother,

Dave Amentrow

"...He has given us His very great and precious promises, so that through them you may participate in the divine nature..."

II PETER 1:4 NIV
